

OUR PROGRAM

The Heirs of the Future Foundation has as its mission to discover, cultivate and help develop the intellectual potential in the sciences, technology, engineering and mathematics (STEM) in children of disadvantaged economic status, and guide them towards professional careers through academic and technological excellency.

OUR KIDS DESERVE

THE BEST EDUCATION

HEIRS OF THE FUTURE FOUNDATION

TEACHING TODAY TO MAKE
A DIFFERENCE TOMORROW

OUR ACTIVITIES

TUTORING

Our program offers extended day tutoring in the areas of science, technology, engineering, and mathematics (STEM) to students of high academic achievement who show interest in the sciences and scientific research.

PROFESSIONAL GUIDANCE

We will offer professional guidance to prepare our students for a career in science, technology, engineering, and mathematics. Also, create and arrange opportunities to attend college and/or secure internships in national and international institutions.

OUR COMMITMENT

To develop the abilities of bright young people from low-income families, who are in the final years of high school, to train them for careers or jobs in national and international positions.

- ✓ **Complementary Education**
- ✓ **Professional Training**
- ✓ **Family Integration**
